

Chen

20 April 1965

Dear General Carter,

STAT [] and I want to tell you and Mrs. Carter how much we enjoyed your party in honor of Mr. McCone. It was indeed, as you had indicated, a small family affair. This fact along with the warm and friendly hospitality of the Carters made it a memorable evening.

This, my second "tour" with you has been an extremely interesting and pleasant extension of the first, now twenty years ago. Because of the nature of the problems with which I am associated, I am afraid I caused you a lot of trouble by presenting a double feature at the Board week after week. Too often the problems were cantankerous and my Committee never has been noted for using a few well-chosen words.

I very much regret your departure, importantly because I feel you have, more than any other Director or Deputy Director in my experience, shown a warm and personal interest in, and genuine concern for, the employees.

You will always be noted, I am sure, for your equanimity of spirit. When in need of solace, drink deeply from "Bourbon on the Rocks."

STAT

Sincerely,

[]
